

About PathO3Gen Solutions

PathO3Gen Solutions (www.patho3gen.com) is a privately held Florida-based company holding multiple patents on their technology and equipment. Their sole mission is to create cleaner, safer environments.

UVZone® Shoe Sanitizing Station

The UVZone® Shoe Sanitizing Station is an innovative multi-patented disinfection technology delivering the combined power of UV-C light and ozone utilizing Corning® HPFS® Fused Silica glass windows. It has been proven to eliminate up to 99.999% of the most harmful pathogenic microorganisms including spore-forming and non-spore-forming bacteria, encapsulated and non-encapsulated viruses from shoe soles in ≤ 8 seconds. The UVZone Shoe Sanitizing Station is NSF International tested, TÜV SÜD Certified, EPA Registered, and manufactured in an ISO 9001-2015 facility in the USA.
